

# AIRPORT PROFESSIONAL CENTER

IRVINE, CALIFORNIA  
3,485 - 40,000 SQUARE FEET

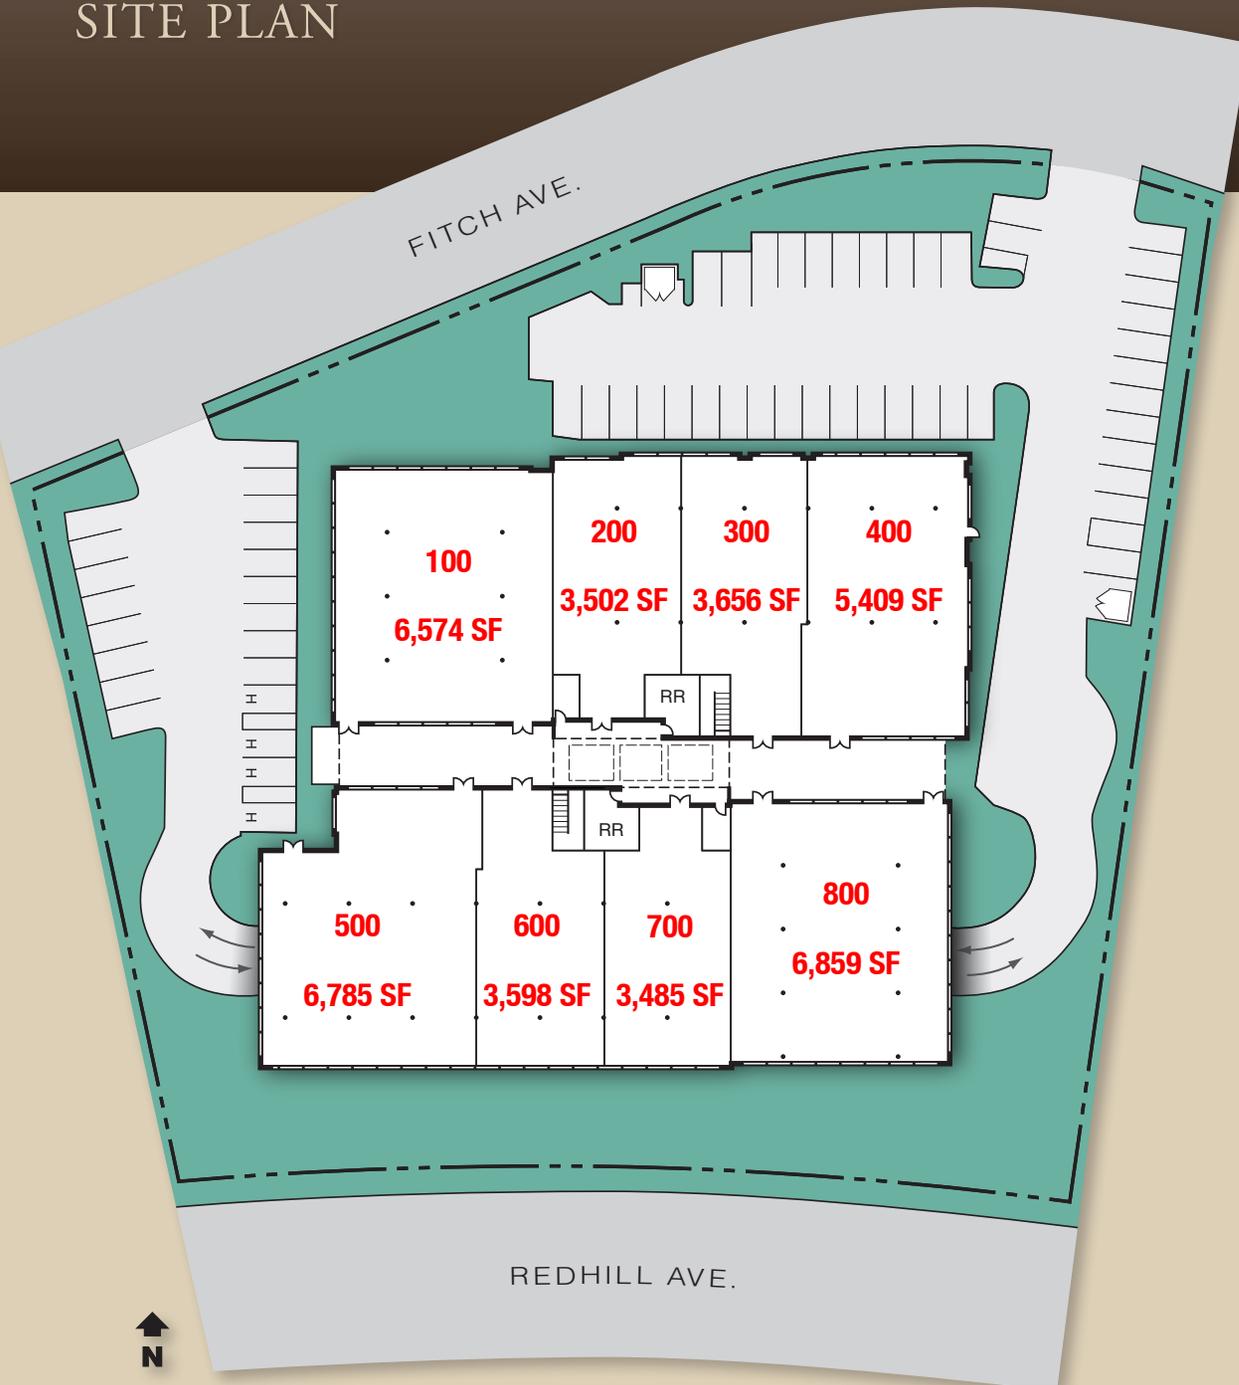

## LEED CERTIFICATIONS

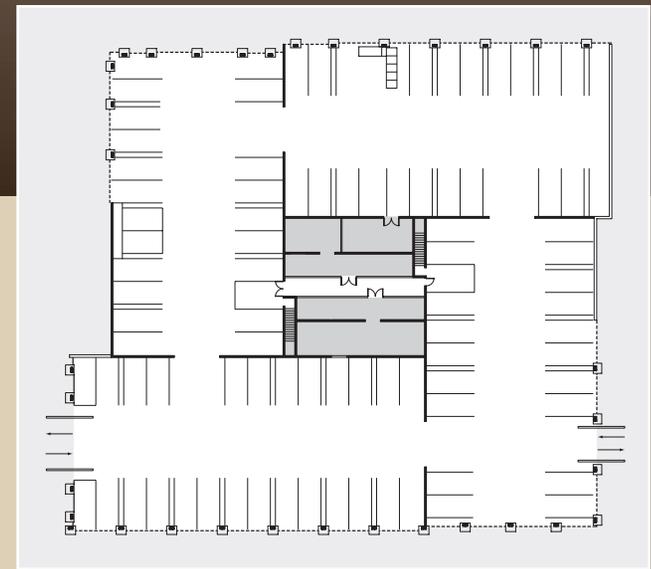

- Water Use Reduction:** The use of water efficient plumbing fixtures results in a design that will use 40% less potable water than a conventional office building
- Energy Efficiency:** Building designed with a highly efficient building envelope
- Below Grade Parking:** Allows for a site design that exceeds local open space requirements by 60%
- Building Reuse:** The design for the building allows for 50% of the existing walls, floors, and roof to remain intact and reduces the project's need for virgin materials
- Construction Waste Diversion:** 75% of all construction waste for the project will be diverted away from landfills and to recycling centers
- Interior Finishes:** Interior paints, coatings, adhesives and sealants were selected to have low levels of volatile organic compounds (VOC's) which creates a healthier interior environment
